

ACCIDENT AND INCIDENT INVESTIGATION COURSE

27 - 29 NOVEMBER, 2016

CASABLANCA - MOROCCO

establishment and management of an accident and incident investigation organization is one of the most important issue today with understanding outlines the duties and responsibilities of ICAO Contracting States, individually and/or collectively, with respect to the establishment and management of a state/regional accident and incident investigation system. This issue is addressed to high-level government decision makers, as it highlights States' obligations as signatories to the *Convention on International Civil Aviation* (Chicago Convention) signed in Chicago on 7 December 1944, and provides information and guidance on the establishment and management of an RAIO to assist Contracting States in fulfilling part or all of their obligations pertaining to accident and incident investigation.

With this regards ACAC has announced accident and incident investigation training course to presents guidance to ACAC member States on how to establish and manage a regional

accident and incident investigation system within a ACAC region, should they wish to fulfil their accident investigation obligations through such a system.
